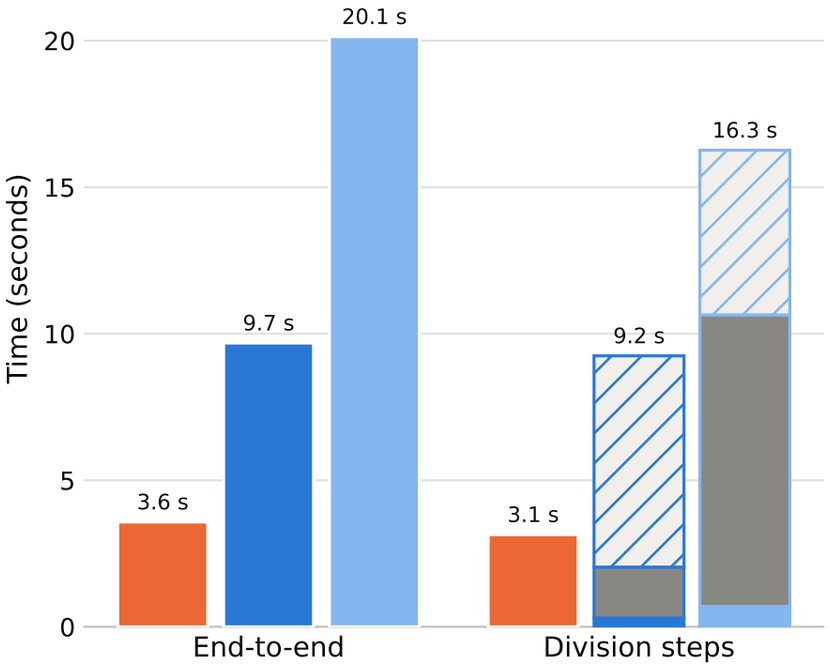
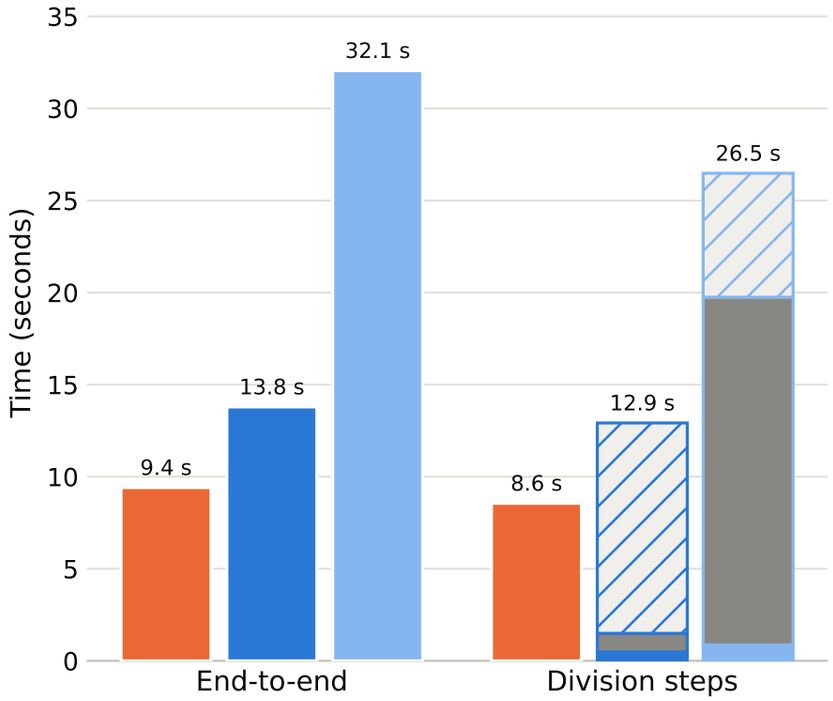
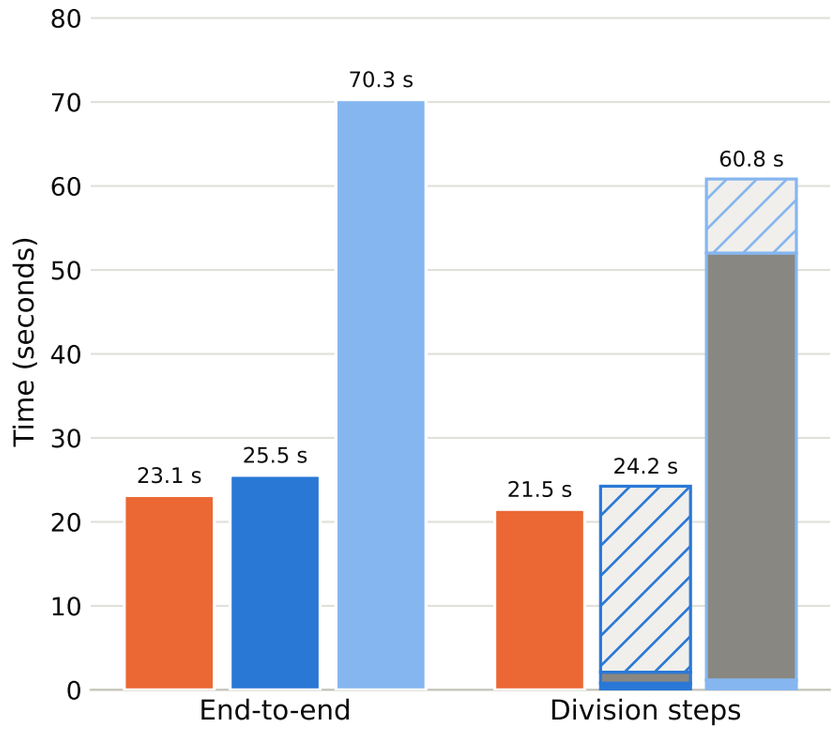
37 taxa (simulated, mammals)
(avg. over 241 samples)



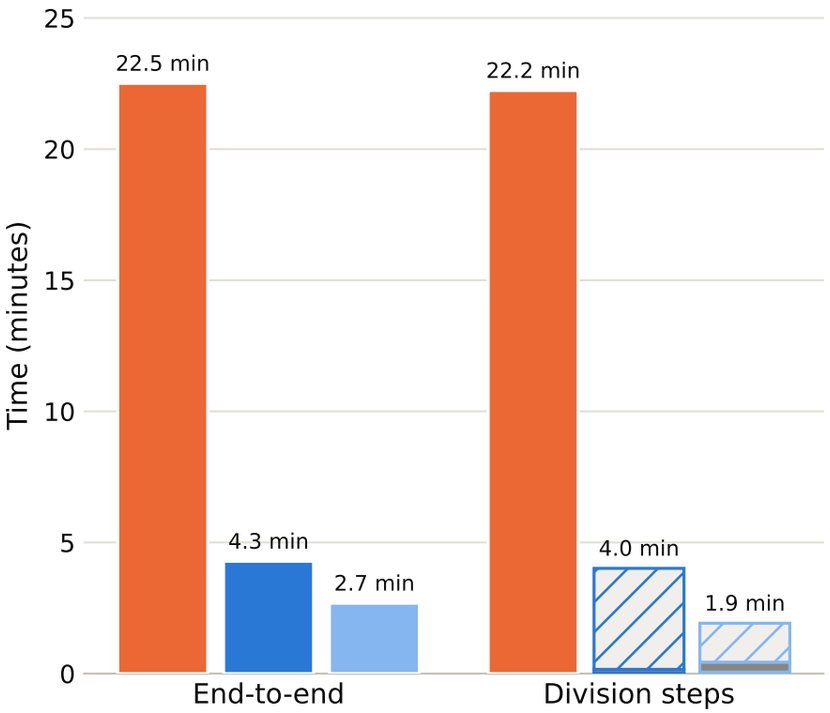
46 taxa (angiosperm)
(1 sample)



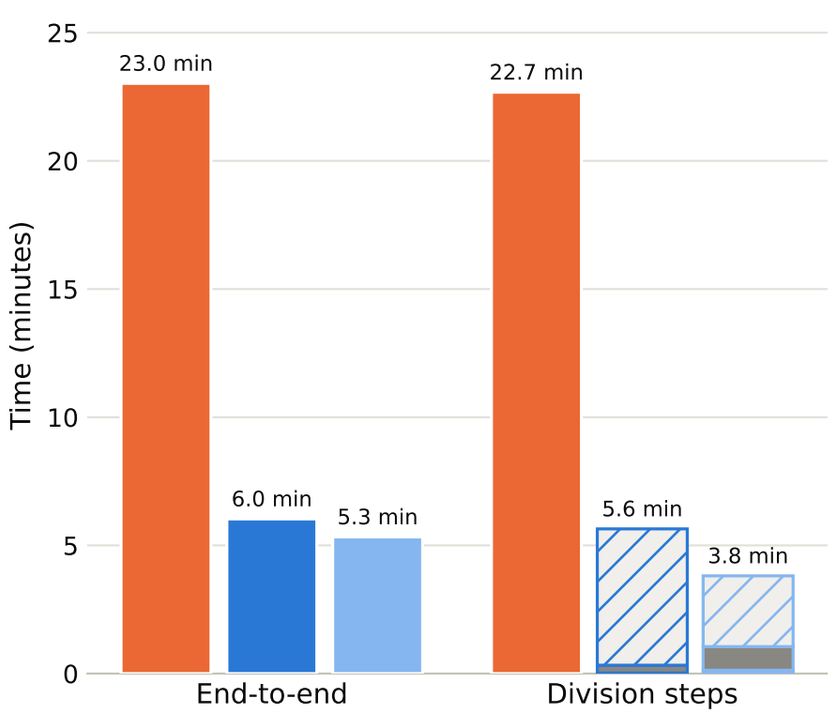
48 taxa (avian ×4)
(avg. over 4 samples)



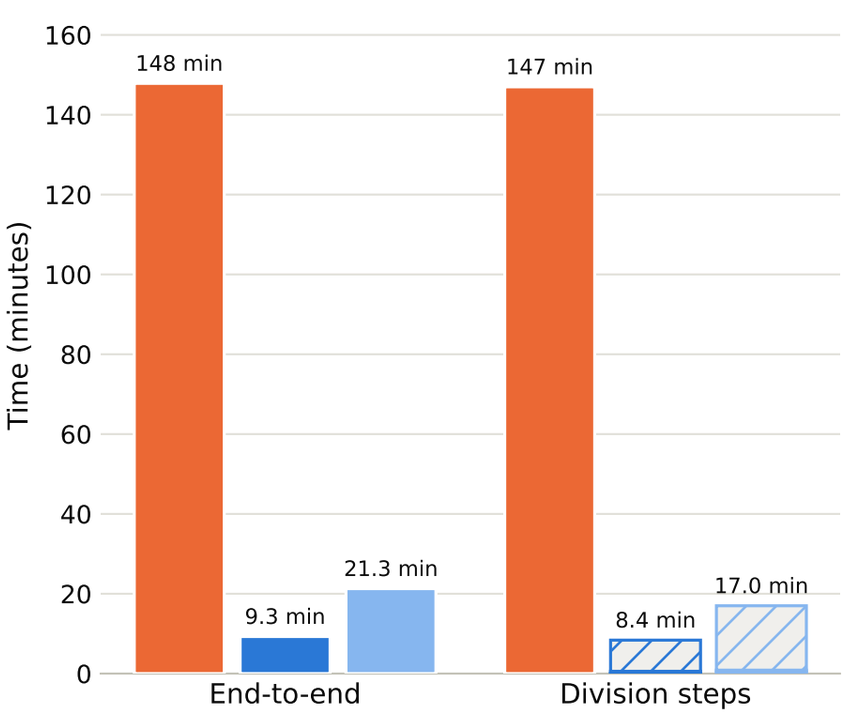
101 taxa (simulated)
(avg. over 19 samples)



144 taxa (insect)
(1 sample)



200 taxa (simulated)
(1 sample)



wQFM
QUANTA, quantum annealer (division: QPU time)
QUANTA, simulated annealing (division: solver time)
QUANTA division: Exhaustive search (partitions with ≤ 20 taxa)
QUANTA division: D-Wave hybrid solver, classical part (200 taxa)
QUANTA division: Other overhead (building QUBOs, network, bookkeeping)
